

METAL BLADDER TANKS

AXEON® Metal Bladder Storage Tanks are manufactured to the highest quality standards and range in storage capacity from 2 to 28 gallons. Tanks come with a stainless steel system connection. Designed for residential RO applications, these tanks are made from FDA listed, food grade materials.

These tanks feature a reliable diaphragm design, and are post-cured before assembly to eliminate the possibility of odors from the tank. These Metal Bladder Tanks are NSF-58 certified and also feature a side mounted air valve. Tanks come standard in white; however, they are available in blue.

FEATURES

- Made from FDA Listed, Food Grade Materials
- Reliable Diaphragm Design, Post-Cured Before Assembly Eliminates the Possibility of Odors from the Tank
- Discharges Efficiently in a Vertical or Horizontal Position
- Maximum Working Pressure is 100 psi
- NSF-58 Certification
- Stainless Steel Threaded Stem
- Designed for RO Applications
- Side Mounted Air Valve
- Tank Stand Included
