

MBR–SERIES MIXED DI CARTRIDGES

AXEON® MBR–Series Cartridges utilize our 2.5" or 4.5" diameter configurations that fit most standard size filter housings. **AXEON MBR–Series Cartridges** feature a Gel Poly Styrene Cross-linked with DVB mixed bed resin. The DI resin used in these cartridges has been specifically developed to reduce total dissolved solids, including calcium and magnesium carbonate.

AXEON MBR–Series Cartridges provide a solution for a variety of applications that need the removal of ionic contaminants. These cartridges act as excellent post-treatment for reverse osmosis systems as well as being effective for applications in the pharmaceutical, semiconductor, medical and industrial fields.
