

CALCITE SYSTEMS

AXEON® Calcite Systems use an advanced calcite pH adjusting media in order to meet the most demanding water conditions. These systems are designed for maximum performance with a minimal amount of maintenance and comply with all industry standards and specifications.

AXEON Calcite Systems offer a new dimension in water treatment equipment and have been engineered with both the installer and consumer in mind. Systems are available in many different models and may be customized to fit your application. **AXEON Calcite Systems** can be used in a variety of applications including residential, commercial, industrial and specialty.

AXEON Calcite Systems are effective in correcting pH to reach a non-corrosive equilibrium. All **AXEON Calcite Systems** beds will periodically have to be replenished as the media is depleted. Replenishing is made easy with the quick disconnects built into the In and Out valve.
